

**YEAR 2
SUMMER 1
CYCLE 2**

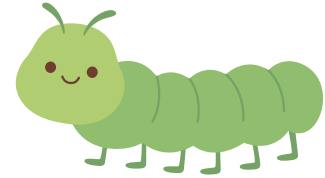

WHAT A WONDERFUL WORLD

We look forward to a fun and engaging term of learning!

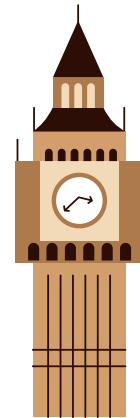

SCIENCE

- Investigating minibeasts and their habitats
- Understanding pollination and the importance of bees
- Learning how worms help keep soil healthy
- Understanding how to protect natural habitats

GEOGRAPHY

- Discovering amazing features and landmarks in the UK
- Exploring famous places around the world
- Learning about the five oceans and where to find them
- Investigating our local area and natural habitats

ART

- Observational drawings of fruits and vegetables
- Developing pottery skills, including adding textures and patterns to clay tiles

RE

- Exploring why people pray and how they do it
- Learning about special objects used in prayer
- Discussing Hindu prayer practices
- Understanding how music can affect emotions

COMPUTING

- Experimenting with sound and music using a computer
- Creating rhythm patterns and musical sequences
- Refining and improving digital music

PE

- Swimming every Thursday morning
